HOSTING ORGANISATION

TDM 2000 Malta (TDM) was founded in March 2005 with the aims of achieving a greater consciousness of international cooperation, mutual understanding and the need to be active in today's society.

TDM2000 is a non political organization that was set up in Sardinia nearly 13 years ago. Its main aim is to enhance youth participation and contribution to society in a local and international level. This is done through the organization of a number of activities such as :

- Youth Exchanges and Democracy Projects
- Training Courses
- Career placements
- Partnership Building Activities
- Fund Raising Activities for the benefit of local Charitable Institutes.

Over the past years the organization has been working hard to set up a European network with branches in Malta, Italy, Germany, Latvia, Poland, Romania and Estonia. Branching out in this manner is an attempt to transpose the work done by the organization from a local to a European level.

HOSTING ORGANISATION

Members are aged 18+ and any work done within the group is on a voluntary basis.
To date, a number of fund raising activities have been organized or participated in by our organization, with the proceeds being donated to a number of charitable institutions.
In addition to this, all branches of the organization have also successfully participated in a number of youth exchanges and training courses that have been organized throughout Europe and beyond, each dealing with specific themes such as:

- Language barriers to communication
- Cultural differences and tolerance
- Historical and literary heritage
- Human Rights Education
- Health

All of these activities serve as a means of broadening one's knowledge and understanding of cultural diversity, and aims to encourage participants to develop their intellectual, practical and artistic capabilities.

BACKGROUND

William Shakespeare said that "*If music be the food of love, play on*". Daniel Barenboim said "*Music is the art of the imaginary par excellence, an art free of all limits imposed by words, an art that touches the depth of human existence, and art of sounds that crosses all borders*".

Music has always been a tool for freedom, integration and inclusion between nations, taking people on the same level, regardless of their cultural, social or ethnic background. Music is one of the best tools to break down any kind of barrier and, especially between youngsters, it is a very important key in the process of inclusion and integration in Europe and the world.

AIM

- The **main aim** of this Youth Exchange is to talk about social exclusion, migration and music as a tool for Social Inclusion, through Non-formal education.

- The **main goal** of this project is to increase social inclusion’s processes through music

MAIN OBJECTIVES

- To develop the topic of Social Inclusion and share, between the participants, best practices in this area at a European level;
- To inform participants on the current migration flows in Europe;
- To create 5 songs on the Social Inclusion theme;
- To use music as a tool to promote social inclusion
- To promote Erasmus Plus opportunities as an instrument for social inclusion and a growth opportunity for youngsters.
