Training Course for Educators

The training course will bring together five educators from each of the following countries: Italy, Romania, Bulgaria, Serbia, and Portugal.

The main focus of the training will be the CiMov methodology, developed by CINEMA VEKKIO (CVK). Participants will be introduced to its core techniques, tools, and approaches designed to actively engage young people in expressing their needs, raising questions, and identifying shared solutions at the local level.

Throughout the training, educators will gain in-depth practical experience with the methodology and explore how to effectively replicate and adapt it within their own local contexts when working with young people.

Training objectives

- To adopt the CiMov methodology, enabling young people to express their needs and questions and collaboratively identify shared solutions.
- To train participants on the informed and correct use of social media, navigating today's difficulties with online disinformation.
- To acquire basic podcast-making skills.
- To transfer this knowledge to young people.

Accommodation and Transportation

...will be fully arranged and booked by the organizers, Circolo Cinema Vekkio, before arrival.

CINEMA VEKKIO (CVK)

In response to requests from young people in the municipalities of Corneliano d'Alba and Piobesi d'Alba (CN) to create a dedicated youth space, CIRCOLO CINEMA VEKKIO (CVK) was founded in 1998. The center provides a welcoming place where young people can meet, exchange ideas, and develop their projects.
With the support of the two municipal administrations, volunteers, the young people themselves, and local social services, the Municipality of Corneliano d'Alba was chosen as the site for the community center. Housed in a renovated 1946 building with a cinema hall and affiliated with ARCI, CVK is open 7 days a week.

The center is run with a co-responsibility approach and offers educational and cultural activities that emphasize youth protagonism and the prevention of hardship, creating an empowering environment for young people.
